Impact of Pulmonary Valve Replacement: A Magnetic Resonance assessment | 4. Surgical ablation of atrial fibrillation by a totally thoracoscopic approach- a real benefit after unsuccessful catheter ablation? | 5. Prognostic value of cardiac troponin after coronary artery bypass grafting | 6. Clinical and haemodynamic performance of 3 aortic bioprostheses: Perimount, Trifecta e Freedom Solo | 7. Coronary artery bypass grafting in octogenarians: early and long-term outcomes | 8. Aortic valve surgery in octogenarians

18:00/19:00

SALA A

Moderators

ANTÓNIO BRAZÃO | Cirurgia Cardíaca, Hospital do Funchal

MIGUEL GUERRA | Cirurgia Torácica, CHVNG/E

1. Can post-CABG atrial fibrillation be prevented by preoperative beta-blocker? | 2. Prosthesis versus Xenografts for surgical treatment of active endocarditis | 3. Comparison between two last generation bioprosthesis in the approach of the small aortic annulus | 4. Veno-arterial extracorporeal membrane oxygenator in patients undergoing to urgent heart transplantation | 5. Low vs. high-gradient aortic stenosis: clinical results and ventricular remodeling after aortic valve replacement | 6. Mini-sternotomy versus full sternotomy aortic valve replacement a single-centre experience | 7. Native valve vs. prosthetic endocarditis | 8. Surgical lesions in infective endocarditis: a prospective study

18:00/19:00

SALA B

Moderators

JAVIER GALLEGÓ | Fundação Champalimaud

DANIELA AFONSO | CHLC, Hospital Santa Marta

1. The mid-term outcomes of Neonatal Aortic Stenosis treatment: a single center study | 2. Surgical treatment of Atrial Fibrillation: early results of a renewed surgical program | 3. Transapical off-pump mitral valve repair with neochordoplasty – initial experience in Portugal | 4. CentriMag® ventricular assist device results as a bridge to recovery or to transplant | 5. Heartmate 3®: destination therapy in cases of end-stage heart failure | 6. A rare finding behind pulmonary hypertension: primary intimal sarcoma of the left atrium | 7. Isolated right atrial metastasis from hepatocellular carcinoma | 8. Total aortic arch replacement with E-vita Open Plus™ hybrid prosthesis – initial experience from a single surgical center | 9. Measurement of the reproducibility of the anticipated hematocrit formula in Cardiopulmonary bypass | 10. Anesthetic management in a Transcaval accessed Transcatheter Aortic Valve Implantation – A Case Report

25 NOVEMBRO

9:00/10:00

Moderators

JOÃO CARLOS MOTA | Cirurgia Cardíaca,

Casa de Saúde da Boavista, Porto

MIGUEL SOUSA UVA | Cirurgia Cardíaca, CHLO, H. Santa Cruz

1. Complete versus incomplete revascularization: long-term survival after CABG | 2. Triple valve surgery: 10-year follow-up from a single center | 3. Prognostic impact of tricuspid valve surgery for moderate-to-severe regurgitation at the time of aortic valve replacement

TORÁCICA

23 NOVEMBRO

17:00/18:00

SALA B

Moderators

JOÃO MACIEL | CHSJ, Hospital São João

RITA BARATA | CHLC, Hospital Santa Marta

1. Ex Vivo Lung Perfusion: a case report | 2. Surgery for Small Cell Lung Cancer: Early Experience | 3. Thymectomy for thymic neoplasms: is there an association with auto-immunity? – a single center experience | 4. Is there a role for surgery in the management of advanced stage NSCLC? – prospective observational study and review of the literature | 5. Lung hernia related with a bull: Case Report | 6. Usefulness of surgical lung biopsy in interstitial lung disease: retrospective analysis | 7. Catamenial pneumothorax: assembling the puzzle | 8. Pleural Hibernoma: case report | 9. Primary pleural Schwannoma: case report

VASCULAR

23 NOVEMBRO

17:00/18:00

SALA C

Moderators

CARLOS PEREIRA | HSA

JOSÉ FRANÇA | Hospital do Funchal

1. Systematic review on the use of shunt during carotid endarterectomy | 2. Carotid Artery Stenting - 10 Years Experience in a Vascular Surgery Department | 3. An 8-Year Experience with Thoracic Endovascular Aortic Repair | 4. Preoperative embolization of carotid body tumors: Yes or No? | 5. Thoracic Outlet Syndrome: casuistic review | 6. Oral anticoagulation prescription after emolectomy for acute upper limb ischemia: a 5-year analysis

1. Pelvic congestion syndrome: common causes and current endovascular treatment options | 2. Endovascular approach to coronary-subclavian steal syndrome | 3. Aortic arch aneurysm - a two-specialty approach | 4. Infected/mycotic aortic aneurysm: what is the best treatment? – case report and literature review | 5. CERAB - When technical skills aren't enough | 6. Conventional is never out of fashion | 7. Hybrid approach for a complex chronic venous obstruction: venous stenting, endophlebectomy, and arteriovenous fistula – Case Report | 8. How many lives can a patient have? | 9. Treatment of a Splenic Artery Aneurysm with Self-expandable Covered Stents | 10. Ruptured renal aneurysm – case report | 11. Giant anastomotic femoral pseudoaneurysm | 12. Covered stent exclusion of a celiac artery aneurism | 13. Radical Nephroureterectomy and Interaortocaval Conglomerate Excision – A Multidisciplinary Approach | 14. Percutaneous mechanical thrombectomy: new weapon in the treatment of acute mesenteric ischemia | 15. Endovascular treatment of a patient with an anastomotic pseudoaneurysm following open abdominal aortic aneurysm repair | 16. APTUS – a type Ia Endoleak solution | 17. Median arcuate ligament syndrome – clinical case | 18. Inferior vena cava transposition and juxtarenal aortic occlusion – surgical dilemma (case report) | 19. Late pseudoaneurysm following upper limb Orthopedic surgery: 2 case reports | 20. Spontaneous rupture of left common iliac artery secondary to penetrating atherosclerotic ulcer
